

La Bohème Sails

Sails

La Bohème carries two complete sets of sails

Normally bent on is her new wardrobe of Dacron sails.

These are in extremely good condition.

Although made in 2009, they are only on the boat for six months a year.

And in fact, they are only in use for about 40 days each year.

She also carries a second set of Duradon sails, also in very good condition (Images 1 & 2).

Of note: the previous owner was fastidious in his care for the sails and boat.

Everything aboard was brought ashore for winter, sealed and packed in modern containers.

The current condition of all her sails (old and new) can be seen in these photos.

1 & 2. Her older Duradon sails, still in good condition. Pictures 1 & 2:

3 & 4. Her current as-new Dacron sails. Pictures 3 & 4

5. This is how her new Dacron sails look today.
